JUDGE GARY EXPLAINS

He Tella Why Corporation's Papers Were Destroyed.

New York, February 7.—Judge Elbert H. Gary, chairman of the United States Steel Corporation, gave out a statement to-night in explanation of the charge rade by the government that certain evidence used in the prosecution of the so-called Jackson wire pools and needed to support the government's suit to dissolve the corporation, had been destroyed.

Judge Gary says that the evidence a trunk full of "old papers" that had been destroyed by Frank Baackes, vice-president of the Foderal grand jury in New York and returned after the indictments in the wire pool investigation had been "disposed of," were ordered destroyed by Frank Baackes, vice-president of the American Steel and Wire Company, who "supposed that all the prosecutions growing out of the wire pools were at an end and that the papers were no longer needed for any purpose."

After expressing his regret that the government "thought it necessary or desirable" to bring its injunction suit restraining the corporation or its subsidiaries from destroying evidence, Judge Gary says that he "had never heard of the destruction of these pares until yesterday."
